SEMI-RIGIDS AIR EGRESS

GF Semi-Rigid Vinyl with Air Egress technology combines easy handling with fast, bubble-free application for efficient, professional-looking installations. Available in 6.0 mil gloss or matte white with permanent or removable clear acrylic adhesives, the line includes four options for a variety of interior and exterior graphic applications, including signage, decals, point-of-purchase displays, exhibits, glass, and architectural graphics. Compatible with solvent, latex, and UV inks, the 54" and 60" wide-format rolls deliver excellent print performance and up to three years of durability, while the same construction is available for Offset printing and Narrow Format Digital sheets for added versatility. Custom roll and sheet sizes also available.
